

## Quadratic Labs Inc. Data Subprocessors

Quadratic Labs Inc. (“Quadratic Labs”) uses certain subprocessors to assist it in providing services to its Customers.

A subprocessor is a third party data processor engaged by Quadratic Labs Inc., who has or potentially will have access to or process Customer Content (which may contain Personal Data). Quadratic Labs engages different types of subprocessors to perform various functions as explained in the tables below.

### Infrastructure:

We use the following subprocessors to provide our cloud infrastructure environment and storage of our Customer Content:

| <b>Subprocessor</b>      | <b>Country of Processing</b> |
|--------------------------|------------------------------|
| Sixa Inc.                | USA                          |
| Amazon Web Services Inc. | USA                          |

### Product Analytics:

| <b>Subprocessor</b> | <b>Country of Processing</b> |
|---------------------|------------------------------|
| Google Tag Manager  | USA                          |
| Google Analytics    | USA                          |
| Hotjar              | USA                          |

Customer Relations Management:

| <b>Subprocessor</b> | <b>Country of Processing</b> |
|---------------------|------------------------------|
| Pipedrive           | USA                          |
